Conference Purpose is to establish a communication and trading platform for global casting purchasers and Chinese casting suppliers.

Seminar: opportunities are provided for the buyers to make purchasing explanations, and the suppliers to hold products promotion seminars.

Attention: **only open to the suppliers and purchasers registered in advance, while not being available for ordinary visitors.**

Conference Review

The 6th Global foundry sourcing conference 2010 was held successfully at Rainbow Hotel from March 24th to 25th, 2010 (Hereinafter referred to FSC Conference) The 6th FSC Conference attracts 100 more delegates from worldwide countries. They are from America, Canada, Germany, UK, Spain, Switzerland, Denmark, Australia, Japan, India, Singapore etc, 25 world's Top 500 industries attend this conference. They are ABB, Siemens, Fiat, Magna, Crane, Alstom, Metso, Danieli, JTKET, Electrolux, Linde Forklift, Wartsila, Gamesa, Dresser, Blackwood from Australia and so on. They made purchasing professional presentations for their Casting sourcing strategies in China, specific purchasing lists, purchasing requirements and qualities required to enter their supply chain for suppliers.

More than 160 casting suppliers from the enterprises of self-owned foundry plants participate in 6th FSC Conference which have already passed one or more International and environmental protection system certificate. All of them have strong manufacturing and research abilities. Such as one of the largest railway casting manufacturers in the world of Tian Rui Group, the European Manufacturing Enterprise of Auto Castings with the Longest History of Infun Cast Co., Ltd, the famous auto castings manufacturing enterprises of Shanghai Sandman, the precision casting leader in China of Dongying Giayoung Precision Metal Co., Ltd. and the well-known valves castings supplier of Shandong Jianhua Valve Making Co., Ltd. The above enterprises made professional productions presentations and attracted more purchasers' attentions. Besides, 24 casting enterprises showed their casting samples to attract purchasers to visit and negotiate. They are Bosch Brakes (Dalian), Shanghai HEBA, Wuxi Huanyu, Guizhou Anji Nonferrous, Valmate Industrial, Fujian Xinwei.

Conference Characteristics

- **Specialty:** Focusing on castings;
- **Internationalism:** The buyers are mainly from North America, West Europe, Japan, Korea, as well as domestic manufacturers requiring large procurement etc. Most of the suppliers have their own factories in China mainland.
- **Targeted service:** At the request of buyers, SC will invite appropriate suppliers or assigned suppliers, and assist buyers forming business partnerships with suppliers before the conference;
- **Reliability:** All the information on suppliers and buyers will be strictly examined by SC;
- **Feasibility of trade agreements:** Purchase discussion, purchase explanation and the products promotion conference will help facilitate an understanding between buyers and suppliers, the goal of the trade agreement will then be realized;
- **Interactivity:** SC will assist you in operating casting transaction with the aim of creating a purchasing platform both online and offline. Apart from having collected over 2300 Chinese casting suppliers' information on their scope of business, orientation of products, standard authentication, casting technology, manufacturing capacity and annual output, etc., our online platform –www.Foundry-Suppliers.Com also contains all the detailed information regarding purchasing blueprint/drawing papers, manufacturing requirements and contact information of transnational casting purchasers to promote online trading for both the suppliers and purchasers

At the FSC, you will find:

- ※ Most suppliers have passed ISO/QS/TS certificate or QC/QA process and understand products' drawings and requirements in English;
- ※ High-qualified suppliers having casting factories;
- ※ Most suppliers provide one or more of the world top 500 companies with casting products;
- ※ Good quality products and guarantee delivery times;
- ※ Learn more about industry information;
- ※ Seeking more customers to avoid the risks of too centralized customers;
- ※ FSC is the best trading platform for your various kinds of castings purchase in China.
- ※ Based on China Foundry Suppliers Database, FSC established the professional online trading platform—www.Foundry-Suppliers.Com to offer better services.

As buyers, you can:

Register for free membership: Casting buyers can register for free membership on the website of China Foundry Suppliers Union -- www.Foundry-Suppliers.Com to post trade leads, browse information of China Foundry Suppliers Database.

Register for full membership: Full membership can browse the details of suppliers in China Foundry Suppliers Database including materials, equipment list, size, annual output, main customers, contact information, etc.
